

Lake Orion Family Dentistry is proud to offer a LIFETIME WHITENING PROGRAM

At Lake Orion Family Dentistry we want you to smile confidently.

Too many patients complain that they are embarrassed to smile because their teeth are yellowed. We want you to have a sparkling new smile to last a lifetime. By maintaining regular cleanings, exams and x-rays we can work together to keep your smile bright!

For a \$99 enrollment fee The Lifetime Whitening program includes:

- One set of customized upper and lower trays
- One starter kit with one tube of whitening gel
- One tube of whitening gel at every recare visit (limited to 2 tubes/12 months)-additional tubes are available for purchase

To be eligible you must:

- Become or be a patient at Lake Orion Family Dentistry.
- Have a recent recare visit by our office (including exam and x-rays).
- You must not have any active, untreated disease (such as gum disease, decay, oral cancer, etc). Once these are treated you may qualify for the Lifetime Whitening.
- Keep regular (every six months) recare appointments which include 2 cleanings per 12 months (or every 3-4 months for periodontal patients), 2 exams per 12 months, and recommended x-rays at least once a year. If you go more than 30 days beyond your check-up time the enrollment will be revoked.
- Your account must be current (no outstanding balance).

Please remember whitening results vary and may not be as effective on some patients as it is on others.
